

Cultural Report (2021 -22)

The cultural committee successfully conducted all the cultural programs in both online and offline mode during the pandemic period.

The success of the cultural events was due to timely allotment of duties, ceaseless cooperation of all the cultural coordinators and perfect execution of the plan by the Management, Coordinators and the students.

The able guidance and clear vision of Rev.Father Manager, Sister Principal and Sister Joice has helped to set a new benchmark for all cultural events. During this academic year we gave a chance to the small marians (class 3rd 4th 5th and 8th) to anchor the events and this was very much appreciated by the Chief guests, press reporters and the parents. This not only has given them a platform to hone their spoken skills but it also infused in them a great sense of confidence.

Scope of improvement

The cultural committee would like to put forward a request to the management that instead of allotting cultural events duties to the cultural committee it would be better if all teachers are involved in preparing cultural programs. This could be done in a way where different events are allotted to a different group of teachers every time. In this way everyone's creative skills could be executed in fantastical cultural events.

This year we are looking forward to conduct an inter house competition which we could not conduct in the previous session during the pandemic.

At the end on the behalf of the entire cultural committee of the year 2021 22.

I would like to extend my heartfelt thanks to the Management, Marian, teaching and non teaching staff and the students.
